

THE NATIONAL INSTITUTE FOR SUSTAINABLE DEVELOPMENT

P.O BOX 28-BANGEM BUEA

Relevant activities – February 2023-March 2026 in point format

1. We have provided vehicles and health workers to remote communities to distribute supplies and also sensitize the population on disease prevention and what to do in case of outbreaks to limit the spread.
2. We have strengthened six health centres and hospitals by renovating the infrastructures, proving modern medical equipment, training and medicines to prevent and respond to pandemic outbreaks.
3. Carried out outreach and sensitization on health measures such as masking, social distancing and localised and improved quarantine procedures.
4. We have also ensured equitable access to medical supplies , supplying diagnostic test kits, treatments and vaccines.
5. We have put in place community based initiatives and put in place localised programs and we have equipped communities to be the first line of defence through their local reporting avenues if they realise and see any symptom and risk.
6. We have also upgraded the response to refine and be up to task with future prevention and preparedness response.
7. We also have an office for indicator monitoring that track epidemiological data in real time to detect clusters of illnesses.
8. We also have extra funds in place to meet surge and provide extra hospital beds, deploy ventilators in case of need, distributing and delivering urgent medical supplies in case of shortages.
9. We also have special vehicles in place to take care of the elderly and disabled to ensure vulnerable groups have access to medication and support and available transportation to medical centres.
